Do-Yamamoto Engineering India Pvt. Ltd.

Fujiwara Engineering Japan is a forward-looking engineering company driven by innovation, precision, and excellence. Founded by the visionary entrepreneur Mr. Abhishek Fujiwara, the company is built on strong engineering expertise and a deep understanding of global industrial requirements. We provide high-quality engineered products and customized industrial solutions for EPC contractors, Oil & Gas companies, Petrochemical industries, Energy & Utility sectors, as well as various PSUs and CGDs. Our core capabilities include premium hose assemblies, specialized industrial components, and application-specific solutions designed to meet demanding operational needs.

Proudly supporting the "Made in India" initiative, we manufacture products in India using advanced Japanese technology and engineering practices, combining cost-effective local manufacturing with global quality standards. We work closely with a network of global partners, suppliers, and distributors to ensure that every solution we provide aligns with project specifications, international standards, and evolving environmental expectations. Through innovation, reliability, and sustainability, Fujiwara Engineering Japan is committed to delivering performance-driven solutions that support critical industries while upholding the highest standards of quality and engineering integrity.

ESSENTIAL IMPACT

We Manufacture components for critical areas while prioritizing Safety and Quality of our product line.

ENGINEERING IMPACT

Products are designed from the knowledge of our supply chain process, engineering process and customer requirement analysis.

CULTURAL IMPACT

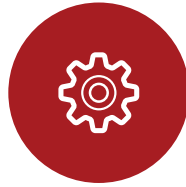

Our organization culture ensures the best outcome for clients, employees and the environment.

WHY DO-YAMAMOTO

TEAM

The heart of any successful company is the team's collective thinking, with a deluge of experts and the right mix of talent we have created an efficient state of affairs to provide the best engineering experience.

FACTORY

Our trusted and long-standing partner factories ensure that all our industrial hoses and hydraulic hoses are produced with superior build quality, enabling us to deliver reliable products that consistently earn strong trust and loyalty in the market.

PRODUCTS

Our products have been engineered with care keeping safety as our paramount priority. Our Crimping technology stands testimonial to this fact of "zero incidents".

ENGINEERING & DESIGN

With continuous years of constant learning curve, we have the niche for challenges and bring out the best from our hoses and the various assemblies for all our product lines.

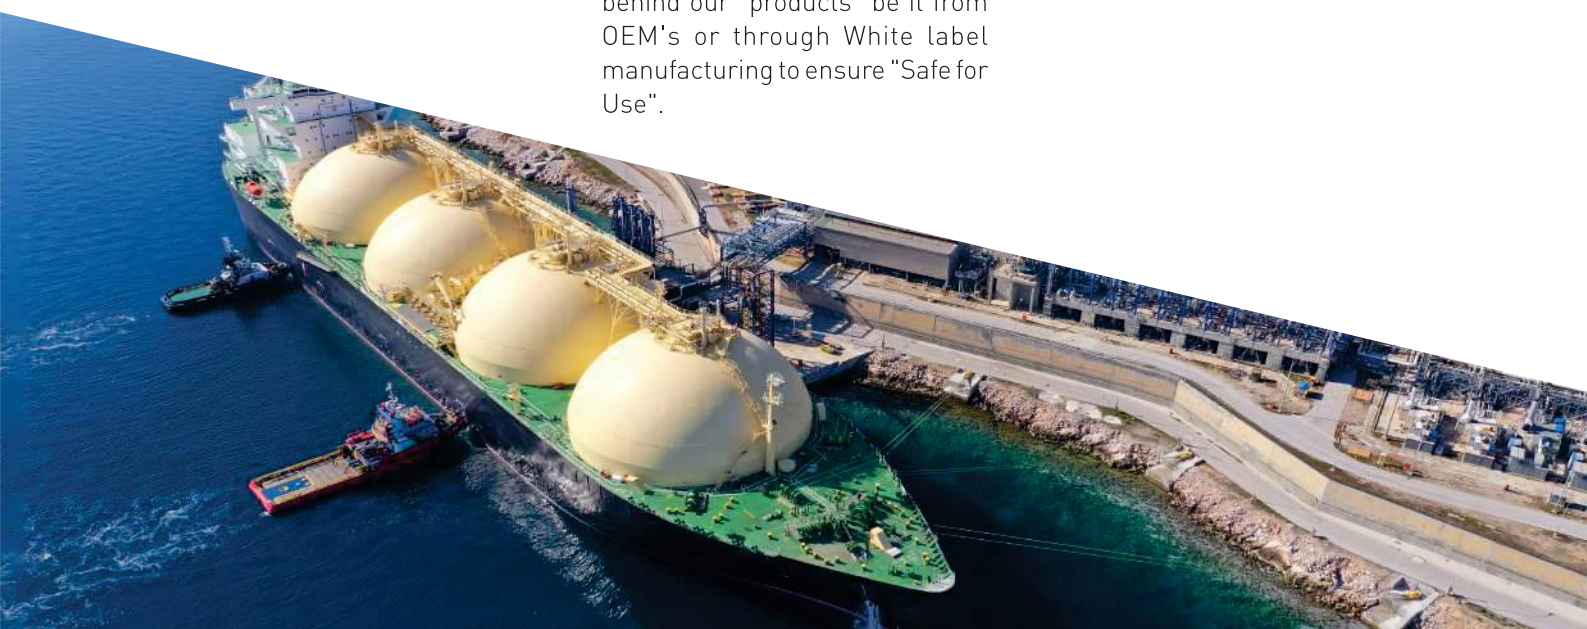

RELIABILITY

The foundational principal of Japanese reliability empowers us to create the right system and processes for our products, employees and clients. With Latest integrated testing facility which exceeds the current protocol, We are able to stand behind our "products" be it from OEM's or through White label manufacturing to ensure "Safe for Use".

PARTNERS

With the advent of Efficient supply chain along with our core partners we are able to promote Full Assemblies and constant manufacturing contracts in due consultation which is approved by Global HQ.

PRODUCTS

Utility Rubber Hose

Thermoplastic Hose

Flexible Metal Hose

MIL Standard Hose (Military Standard)

Concrete Discharge Hose

Other Specialized Hoses

Composite Hose

Camlock Coupler

Universal Claw Coupler

Steam Coupler

Dry Disconnect Coupling

Break Away Coupling

Quick Disconnect Coupling

Other Industrial Couplers

MIL Couplers

Rubber/Metal Expansion Joint

Single/Double Ferrule Fittings

PE Valve

Appliance Valve

Isolation Valve

CNG/Gas Valve

Ball Valve

Instrumentation Valve

Flanges and Flange Fittings

Line Pipe, Steel Tubes and Pipe Fittings

PRODUCTS

Utility Rubber Hose

Fluid : Air, Water, Nitrogen , Steam
Size : 1/4" ~ 2" (Others as per requirements)

Various hose range are available to match required Design Temperature & Pressure

Thermoplastic Hose

Fluid : CNG, Oxygen, Paint
Size : 1/4" ~ 3/4"

Various Thermoplastic hose range are available to match required High Design Temperature & High Pressure.

Flexible Metal Hose

Fluid : Steam, Air, Gases, Water, Oil, Chemical ~

Size : 1/4" ~ 14"

PTFE inner Line type is available as per requirement

Various hose range are available to match required Design Temperature & Pressure

PTFE Flexible Metal Hose

Fluid : Chemical, Acid, Solvent, Petroleum Products ~
Size : 1/4" ~ 12"

PTFE Flexible Metal Hose / Straight /Corrugated

Various hose range are available to match required Design Temperature & Pressure

Rubber Expansion Joint

Type : Straight/Bellows
Size: 1" ~120" (others as per specification)

Application : Oil & Gas Plant, Power Station, Chemical Plant ~

Metal Expansion Joint

Type : Hinged/Gimbal/Universal/ Pressure Balanced/Contra Ring Type/Rectangular Type/PTFE inner Line Type

Size : 2"~ 72" (others as per specifications)

Application : Oil & Gas Plant, Power Station, Chemical Plant ~

Composite Hose

Fluid : LNG , LPG , Aggressive
Chemical , HydroCarbos ,oils ~
Size : 1" ~ 12"

Application : Ship to Shore, Tank truck,
Rail-car, Petrochemical Plant, Loading
and unloading of Chemical Cargo

MIL-H-22240 & MIL-C-24356 Hose & Couplings

Fluid : Oil , Water
Size : 2-1/2", 4",6",7"

Application : Alongside Fueling , Astern
fueling & Alongside water Transfer

Other Specialized Industrial Hoses

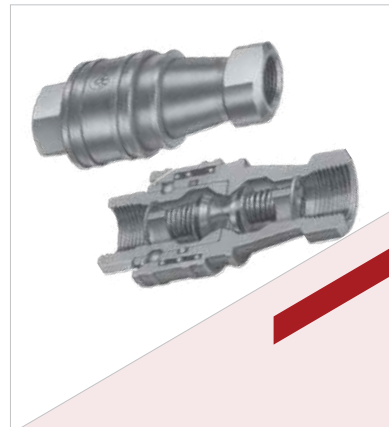

Duct, PVC, High Pressure
Concrete Discharge, Rubber
Chemical Hose, PTFE Hose -

Dry Disconnect Coupling/ Dry Break Coupling

Size : 1"~8"
Material : Aluminum, brass,
Stainless Steel

Application : LNG, LPG, Chemical ~

Quick coupling (Socket & Plug)

Size : 1/8"~ 2"
Material : carbon steel, brass,
Stainless Steel
Fluid : Air, water , working Oil,
chemicals ,Gas

Cam & Groove Coupling, Chicago Type, Hammer Steam Coupling

Size: 1"-8"
Material: Aluminum, brass, Stainless
Steel
Fluid: Water, Chemicals -

Valves
PE Valve, Isolation Valve,
Appliance valve

Size: 50mm-315mm

Application : Natural Gas Collection
Natural Gas Distribution Landfill Gas
Hydrocarbon fuel gases. Hydrogen Air
Other inert gases Potable water and
sewage.

Ball Valve and
Instrumentation Valve

Size: 1/16" ~ 4"

CNG / GAS Valve

Size: 1/16" to 4"

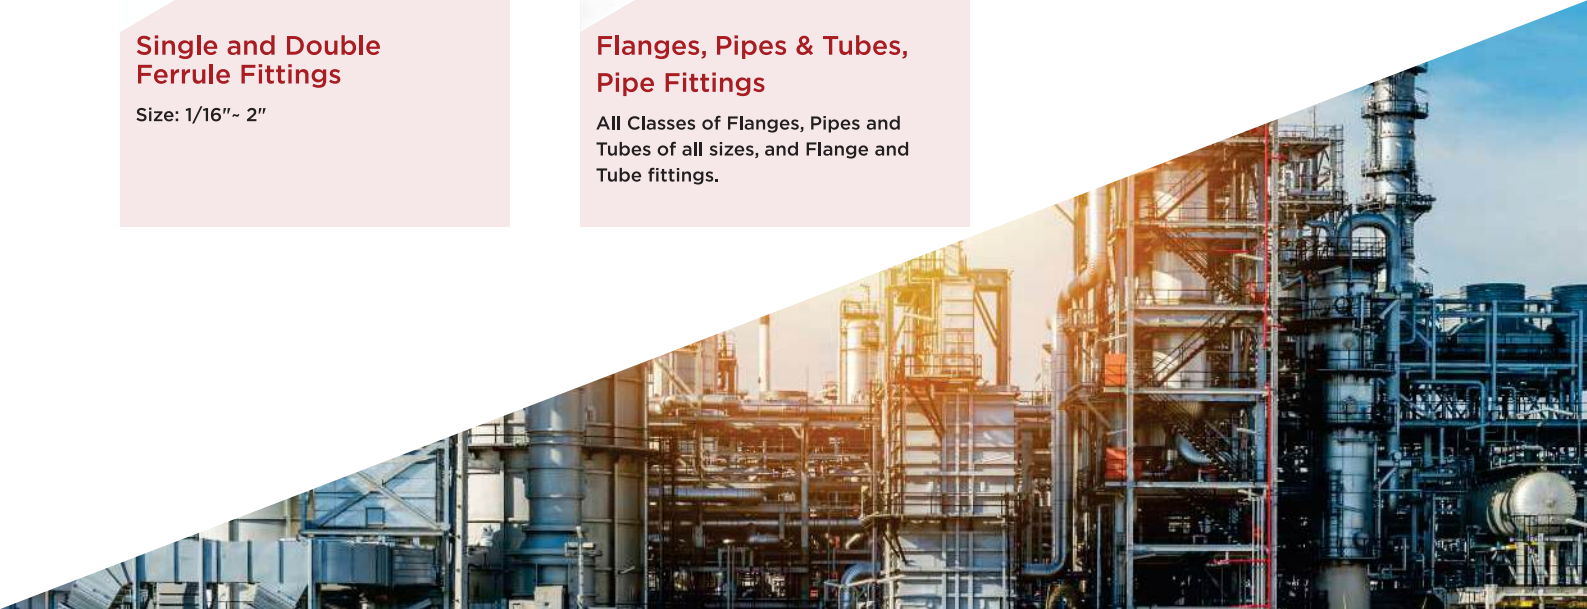

Single and Double
Ferrule Fittings

Size: 1/16" - 2"

Flanges, Pipes & Tubes,
Pipe Fittings

All Classes of Flanges, Pipes and
Tubes of all sizes, and Flange and
Tube fittings.
